92507 · NEUSE RIVER COUNCIL OF GOVERNMENTS ATTN: CHIEF FINANCIAL OFFICER OR BUDGET ADMINISTRATOR PO BOX 1717 NEW BERN, NC 28560

Dear 92507 - NEUSE RIVER COUNCIL OF GOVERNMENTS:

During the 2014 General Assembly session, contribution-based benefit cap legislation was enacted effective January 1, 2015. This legislation was created to control the practice of "pension spiking," in which a member's compensation substantially increases, resulting in a monthly retirement benefit that is significantly greater than the member and employer contributions would fund. The Contribution-Based Benefit Cap (CBBC) approach was created to protect each system for current and future retirees and to prevent all employers in the Retirement Systems from absorbing the additional liabilities caused by compensation decisions made by other employers. This legislation applies to members who retire on and after January 1, 2015, with an average final compensation of \$100,000 or higher (adjusted annually for inflation), and will directly impact only a small number of those individuals. It requires the member's last employer to pay the additional contribution required to fund the member's benefit in excess of the cap. [G.S. 135-5(a3); 135-4(jj); 128-27(a3); and 128-26(y)]

In order to assist employing agencies with planning and budgeting to comply with the CBBC provisions, we are required to report monthly to each employer a list of those members for whom the employer made a contribution to the Retirement System in the preceding month that are most likely to require an additional employer contribution should they elect to retire in the following 12 months. This letter and the attached report serve as our required monthly notification to your agency under this provision. [G.S. 135-8(f)(2)(f) and G.S.128-30(g)(2)(b)]

The chief financial officer of your agency is required to provide a copy of the attached report to the chief executive of your agency, as well as to the governing body, including any board which exercises financial oversight. Additionally, the chief financial officer of a public school system is required to provide a copy of the report to the local board of education and notify the board of county commissioners of the county in which the local administrative unit is located that the report was received and how many employees were listed in the report. [G.S. 115C-436(c); 135-8(j); and 128-30(j)]

For the purpose of determining the employees of your agency that are likely to require an additional employer contribution should they elect to retire in the following 12 months, the Retirement System modified the criteria used in the CBBC calculation. This allows for a broad list of potential employees, including those whose compensation average may approach the threshold and attempts to provide your agency with prior notification of a potential cost. The attached report

lists employees of your agency who may be eligible to retire in the next 13 months (at either a reduced or unreduced benefit), whose salary is \$115,000.00 or greater, and whose estimated monthly retirement benefit exceeds the CBBC based on information in the employee's most recent annual benefits statement. In addition, a lower CBBC Factor (i.e., TSERS is 4.2 and LGERS is 4.4) is applied.

This list is not exhaustive, and members included on this list may or may not exceed the CBBC upon retirement, depending on a number of factors such as the member's average final compensation, the member's age at retirement, and membership service. This is merely a notification of a potential cost that your agency may be required to pay, in the form of a lump-sum payment, due after the member retires.

For those employees hired on or after January 1, 2015, the employer is not required to pay the additional contribution to fund the member's benefit in excess of the Contribution-Based Benefit Cap. The employer has the option to pay all or part of the contribution required in excess of the CBBC; the employee also has the option to pay all or part of the contribution. However, should neither of you choose to pay this additional contribution, the employee's retirement benefit will be capped.

You can calculate the likelihood of whether the retirement benefit of a member listed on the attached report will exceed the CBBC with information available on our website at <a href="https://www.myncretirement.com/employers/employer-training/pension-spiking">https://www.myncretirement.com/employers/employer-training/pension-spiking</a>.

If you have any questions or need assistance in calculating the likelihood of a potential CBBC liability, please contact us at the address or telephone number listed below.

Sincerely,

## **DIFFICULTIES ENCOUNTERED**

(As applicable, should include information on specific reasons why goals and objectives were not met, and plans to resolve the difficulties.)

• Due to ECC leadership transitions, the development of the 2023-27, had not begun prior to the arrival of Executive Director David Bone in May 2022. Based on the organization's short-term needs to re-establish capacity and fill vacant crucial positions, ECC was not able to begin work on the CEDS until August 2022. There was an accelerated time period to develop the 2023-27 CEDS, and ECC did not meet the December 2022 CEDS completion goal. However, a draft CEDS was shared with EDA in December 2022, and the 2023-27 CEDS was approved by the General Membership Board at its January 12, 2023, meeting.

## **Summary:**

The following is an update on our Community Planning Technical Assistance efforts:

## ARP Technical Assistance (through NCARCOG / State grant funding)

- There was an ARP reporting deadline on April 30, 2023, and ECC Community Planning staff assisted communities to meet this deadline, including Treasury portal access, SAM.gov registration, reporting, compliance, and related issues.
- o Community Planner Holly Craighead developed a 2-page guideline to help local governments through the revenue replacement option.
- Staff are working with communities on an ongoing basis to help them decide how to best utilize the funds.

## • Disaster Recovery Technical Assistance (through NCARCOG / State grant funding)

- As you may recall, the State of North Carolina received a \$6 million dollar appropriation from the North Carolina General Assembly in Session Law 2021-180c to support local governments effectively manage disaster recovery funding and build capacity to effectively recover from disasters. The North Carolina Office of State Budget and Management ("OSBM") entered into a subaward agreement with NC Association of Regional Councils of Government (NCRCOG) regarding these funds.
- One of the purposes of this grant funding / program is to provide training and support to local governments for disaster recovery / hazard mitigation plan training and development. The NCARCOG recently selected High Street Consulting and Tidal Basin Consulting to assist with the development of a training module on Disaster Recovery. All the COGs will be assisting the consultant to develop the curriculum, and a "train the trainer" event for COG staff is expected in the fall. We expect to implement the training program in ECC in 2024.
- ECC is collaborating with Upper Coastal Plains COG (UCPCOG) to acquire the services of a consultant to assist with some of the scope of work for the grant, and Working Landscapes (<a href="https://workinglandscapesnc.org/">https://workinglandscapesnc.org/</a>) has been chosen, and a contract was entered on May 1<sup>st</sup>. Working Landscapes will assist ECC and UCPCOG engaging communities with interest in:
  - Developing strategic priorities for disaster recovery / resiliency,
  - Seeking grants for water, wastewater, and stormwater infrastructure, and
  - Possibly other assistance related to the recommendations from the RISE (Regions Innovating for Strong Economies and Environment) program.
- ECC Finance Director Melinda McGuire is working with a consultant and a committee of staff members from other Councils of Government to develop a curriculum for disaster recovery training. We expect to implement training program on this for all member governments in ECC in the second half of the 2023-24 fiscal year.

O As part of this Disaster Recovery effort, ECC can assist members review their ordinances for best practices and assist them with updating their stormwater ordinance. If a community is interested in ECC reviewing its stormwater ordinance, they are asked to email ECC Executive Director David Bone at <a href="mailto:executivedirector@eccog.org">executivedirector@eccog.org</a>.

## • 160-D Compliance Ordinance Reviews

- o The 160D recommendations were presented to Vanceboro on April 3<sup>rd</sup>.
- Senior Community Planner Carlton Gideon has submitted 160D review recommendations to Bogue and is working on finalizing the 160D review for Pink Hill.
- o ECC is waiting to hear back from a number of other communities to which 160D review proposals were sent. Communities not compliant with NC's 160D requirements encouraged to contact ECC - Chapter 160D of the North Carolina General Statutes consolidated city- and county-enabling statutes for development regulations (formerly in Chapters 153A and 160A) into a single, unified chapter. Chapter 160D placed these statutes into a more logical, coherent organization. While the new law did not make major policy changes or shifts in the scope of authority granted to local governments, it did provide clarifying amendments and consensus reforms. All city and county zoning, subdivision, and other development regulations, including unified-development ordinances, should be updated to conform to the new law. The original deadline for compliance was July 1, 2021. The General Assembly extended the deadline for towns with a population under 1,500. Those towns have until July 1, 2023, to become 160D compliant. ECC staff have completed / are in the process of completing 160D compliance ordinance reviews for several communities. Communities that are not 160D compliant are strongly encouraged to contact ECC Executive Director David Bone at 252-638-3185, ext. 3005 or at executive director@eccog.org.
- o For more information on 160D requirements, visit <a href="https://www.sog.unc.edu/resources/microsites/planning-and-development-regulation/ch-160d-2019">https://www.sog.unc.edu/resources/microsites/planning-and-development-regulation/ch-160d-2019</a>.

## **BACKGROUND**

The Neuse River Council of Governments (d/b/a Eastern Carolina Council, or ECC) was founded in 1967 to serve the eastern North Carolina Counties and the municipalities in Carteret, Craven, Duplin, Greene, Jones, Lenoir, Pamlico, and Wayne. Over the years, there have been several periods of leadership challenges, and at times, the COG has struggled to be relevant. Most recently, the executive director position became vacant in July 2021.

The ECC Executive Committee voted to recommend to the ECC Board of Directors and the local governments in the region to rebuild the ECC into a comprehensive COG that will maximize the relevancy of the organization to its owners, the local governments of the region. To accomplish that goal, not only will the local governments have to financially support and participate in efforts of the ECC but will have to acquire a staff that possesses the skill sets to provide the services needed and desired by the region's local governments.

The Neuse River Council of Governments currently is designated by the U.S. Department of Commerce Economic as an EDA District for Carteret, Craven, Duplin, Greene, Jones, Lenoir, Pamlico, and Wayne counties in eastern North Carolina. The District is in good standing with an approved Comprehensive Economic Development Strategies (CEDS) plan on file with EDA-Atlanta.

The current EDA planning grant has historically funded the salary and work of the COG's executive director position. Some of the COG's tasks were contracted out for project work in the last few years, because there are no other professional staff at the COG providing community economic development technical assistance, grant writing, and project development.

ECC is currently designated an Economic Development District by the U.S. Department of Commerce Economic Development Administration. It risks losing that designation if the ECC does not successfully rebuild into a functional COG. This grant provides resources to assist in the re-establishment of capacity at ECC.

## **DIFFICULTIES ENCOUNTERED**

(As applicable, should include information on specific reasons why goals and objectives were not met, and plans to resolve the difficulties.)

Goals were met; however, ECC is experiencing the following challenges:

- Challenge #1 Cash flow With the addition of two additional grant programs (ARP Technical Assistance and Disaster Recovery) in ECC through the NC Association of Regional Councils of Government (NCARCOG) and delays in reimbursements, cash flow has been a concern.
  - RESOLUTION The reimbursement delays are expected to be resolved soon. We
    plan to evaluate the dues structure in the next 6 months, which can help us grow
    the organization's fund balance in the long term and assist with cash flow
    management.

- Challenge #2 Overcoming Late Audit The FY 2020-21 Audit was late (it was not finalized until September 2022), and work on the FY 2021-22 Audit is just getting started.
  - RESOLUTION New ECC Finance Director Melinda McGuire (hired August 2022) is working to ensure the FY 2021-22 Audit proceeds quickly and smoothly. ECC hopes to get caught up with the FY 2022-23 Audit.
- Challenge #3 Alignment of expansion of staff capacity, member services, and financial resources. ECC is diligently working to develop the new planning staff, offer great service to our members, and expand its services. There is a challenge to ensure we have sufficient staffing and expertise to complete projects timely and efficiently for our members. If we receive enough contracts, we will need to expand the staff.
  - o RESOLUTION ECC is working hard to maintain quality and alignment of capacity while balancing the needs of members.

## **Summary:**

The following is a Transportation update from our RPO staff:

• <u>SPOT 7.0</u> – The Strategic Prioritization Process (SPOT) is the methodology that NCDOT uses to develop the State Transportation Improvement Program (STIP). The process involves scoring all roadway, public transportation, bicycle, pedestrian, rail, and aviation projects on a number of criteria. Metropolitan Planning Organizations (MPOs), Rural Planning Organizations (RPOs), and the NCDOT Division offices also contribute to the final project score by assigning local priority points to projects.

The seventh round of prioritization, known as **SPOT 7.0**, began in the fall of 2022 and is now beginning to kick into full gear. Right now, NCDOT's SPOT Office is asking MPOs and RPOs to review their carryover projects (those programmed in SPOT 5.0 and earlier) and determine if there are any projects that should be removed in exchange for an extra submittal slot. RPO staff will soon begin evaluating potential SPOT 7.0 projects, which will include our submittals from SPOT 6.0 as well as newly identified project needs.

The submittal window will open in July and will be open through the end of September 2023. Our goal is to have a final list of projects approved and ready to submit by the September TCC/TAC meetings. Between now and then, our RPO Directors will be communicating with our partners in the region and at NCDOT to make sure we have the best possible submittal list for our regional transportation needs.

- Regional Submittals for Carbon Reduction Plan Grant Program and Multimodal Planning Grant Grant applications submitted from the region are being reviewed. Award announcements should come at the end of May or first of June.
- Craven County Comprehensive Transportation Plan (CTP) The Craven County Comprehensive Transportation Plan (CTP) should be finalized soon. A CTP is a long-range planning document that is a resource in making transportation decisions for the next 25 to 30 years. The NCDOT Board of Transportation is expected to adopt the Craven County CTP at its May 4, 2023 meeting.
- <u>Carteret County Comprehensive Transportation Plan (CTP)</u> The Steering Committee is currently in the public input phase and just wrapped up collecting responses from the online Carteret County Transportation Survey. Responses to the survey, which ended on April 30, were strong.
- <u>Greene County Comprehensive Transportation Plan (CTP)</u> Work is beginning on an update to the Greene Count Comprehensive Transportation Plan (CTP), which was last updated in 2012. A Steering Committee has been recruited. RPO staff is coordinating the scheduling of committee meetings with NCDOT and the communities.

- <u>ECRPO Meetings</u> The next Eastern Carolina Rural Planning Organization (ECRPO) Technical Coordinating Committee / Technical Advisory Committee (TCC/TAC) is scheduled for May 18<sup>th</sup> at 9:00 a.m. at the LaGrange Community Center.
- <u>DERPO Meetings</u> The next Down East Rural Planning Organization (DERPO) Technical Coordinating Committee (TCC) meeting is scheduled for May 23<sup>rd</sup> at 10:00 a.m. at the ECC Offices, and the next DERPO Technical Advisory Committee (TAC) meeting is scheduled for May 30<sup>th</sup> at 10:00 a.m.

### **Summary:**

A draft annual operating budget for the Eastern Carolina Council of Governments' (ECC) Fiscal Year 2023-24 was presented to the Budget and Audit Committee on April 13, 2023. It is scheduled to be reviewed again by the Budget and Audit Committee on May 11, 2023 and presented to the Executive Committee at tonight's meeting.

The draft budget is balanced and has been prepared in accordance with the provisions of Article 3 of the NC General Statute (the Local Government Budget, and Fiscal Control Act). This balanced budget includes estimated revenues and appropriations of \$8,739,624 and includes the operations of the Council's special revenue funds, as well as the General Fund.

#### **Budget Focus:**

Priorities for ECC remain focused on reestablishing capacity and assisting our local government members on topics of regional impact and supporting local government members to better accomplish their mission. In assembling this budget, the priority is to have conservative revenue projections while continuing to implement steps to grow organizational capacity and services to our members.

#### **Budget Highlights:**

- As a member organization, we strive to keep dues as low as possible while providing outstanding service. It is extremely important to stress that member dues have not increased since FY 2006-07.
- Membership rates remain at \$0.353 per capita.
- Revenue for Administrative and Technical Assistance is expected to grow.
- A cost-of-living adjustment of 2.5% is included for employees, as well as the potential for a one-time salary enhancement of up to 4%, based on merit.
- Health insurance rates are increasing by 3%, while dental insurance rates are not increasing.

This draft budget represents our departments' best efforts to meet the needs of our region in a timely and responsible fashion. ECC is committed to continuing its investment in Aging, Economic and Development, Transportation services and collaborating with the communities of our region. These investments are critical to the future of eastern NC.

With the draft budget, our organization remains focused on our strategic goals and mission while continuing to maintain our financial viability. We continuously monitor and evaluate our revenues and expenditures to maintain financial stability. We continue to look for ways to improve efficiency and effectiveness in our organization, as well as new avenues to increase service to our members.

### **Action Requested:**

• The Executive Committee is asked to schedule a public hearing for the June 8, 2023 General Membership Board Meeting at 6:30 p.m.

(A notice about the proposed 2023-24 Budget will be posted on the ECC's website. Also, a copy of the proposed budget will be placed on file with the ECC's clerk and will be available online or can be mailed for public inspection within 10 days prior to the June 8, 2023 public hearing.)

#### **Summary:**

As part of the hiring / interview process, Executive Director David Bone was asked to provide a 90-day plan to start his tenure as Executive Director. This plan has been used as a guide in the operation of ECC, and progress has been made.

In the February 9<sup>th</sup> Executive Committee meeting, Executive Director Bone provided an update on the progress made with this plan. Additionally on February 9<sup>th</sup>, the Executive Director facilitated a conversation with the Executive Committee about the Strengths, Weaknesses, Opportunities, and Threats (or SWOT analysis) for the organization.

A SWOT analysis guides in the identification of an organization's strengths and weaknesses (S-W), as well as broader opportunities and threats (O-T). Developing a fuller awareness of the situation helps with both strategic planning and decision-making.

A SWOT analysis can offer helpful perspectives at any stage of an effort. It can be used to:

- Explore possibilities for new efforts or solutions to problems.
- Make decisions about the best path for initiatives. Identifying opportunities for success in context of threats to success can clarify directions and choices.
- Determine where change is possible. An inventory of your strengths and weaknesses can reveal priorities as well as possibilities.
- Adjust and refine plans mid-course. A new opportunity might open wider avenues, while a new threat could close a path that once existed.

The results of the February 9<sup>th</sup> SWOT analysis are attached.

ECC Staff also completed a SWOT analysis on March 13<sup>th</sup>. The results of the staff SWOT analysis are also attached.

Executive Director Bone took feedback from the two SWOT analyses to draft some strategic priorities for the 2023-24 fiscal year and presented them at the April 13<sup>th</sup> meeting.

The draft strategic priorities have been since shared with the Executive Committee and General Membership Board by email. Additionally, the draft strategic goals were shared with staff. Additional suggestions have been received and incorporated into the revised, draft strategic goals.

### **Request:**

• The Executive Committee is asked to review the draft Strategic Priorities, make adjustments as it sees fit, and make a recommendation to the General Membership Board prior to the June 8, 2023 General Membership Board meeting.

#### **Summary:**

On October 13, 2022, Toni Blount, myFuture NC's Regional Impact Manager, made a presentation to the ECC Executive Committee and provided an overview of myFuture NC and its goal to have 2 million North Carolinians with a high-quality credential or postsecondary degree.

myFuture NC is a statewide nonprofit organization focused on educational attainment and is the result of cross-sector collaboration between NC leaders in education, business, and government. myFutureNC's mission is to prepare North Carolina for the future by empowering individuals, strengthening communities, and ensuring our economic viability in a global economy. myFutureNC is working across sectors and in communities throughout the state to:

- Close gaps in postsecondary attainment.
- Promote alignment between educational programming and business/industry needs.
- Ultimately improve the quality of educational opportunities for all North Carolinians.

On Feb. 20, 2019, myFutureNC unveiled its goal and bold vision for the future of education in our state – to ensure that by 2030, 2 million North Carolinians have a high-quality credential or postsecondary degree.

On July 28, 2022, the NCSU Institute for Emerging Issues and myFutureNC co-hosted and facilitated a regional meeting of local leaders to discuss the importance of educational attainment. The purpose of the event was to create future opportunities for collaboration among local leaders to increase educational attainment in their communities. Local elected officials and business leaders reviewed county-specific attainment data, learned about potential actions to improve the workforce, and heard updates about support from myFutureNC and successful efforts underway among our counties. We had good participation from our ECC region. Attendees identified potential areas for focused action in individual counties. myFutureNC staff is following-up with individual counties to help continue and expand the conversation.

Each county is being asked to adopt a resolution of support for myFutureNC's educational attainment goal. Additionally, the Eastern Carolina Workforce Development Board is a strategic partner for myFutureNC and is partnering with the organization in its efforts in our nine counties to develop strategies to support the educational attainment goal.

### **Action Requested:**

• As a regional partner for the Eastern Carolina Workforce Development Board and myFutureNC, the Executive Committee is asked to approve the attached resolution.
