

BRIC – TOWN OF CALYPSO: RFQ Question & Responses

Question 1: I know another engineer performed a study in 2022, but have there been any other activities related to this project since then?

An application was prepared by Colliers Engineering and Design & ECC and submitted for a FEMA BRIC Grant funding in 2022. The preliminary Engineering Study was completed by Appian Engineers & Consulting which was submitted with the BRIC application. There have been no other activities related to this project since the Application was submitted.

Question 2: Did the COG utilize any engineering firms when completing the grant application from BRIC? If so, who were the firm(s)?

ECC utilized Colliers Engineering & Design to assist with the preparation of the BRIC Grant application.

Question 3: What was the total grant amount received?

Funding awards and project information for the 2022 BRIC funding cycle is available on the North Carolina Department of Public Safety (NCDPS) under '2022 Winning Applications'. The name of the project is Town of Calypso- EDRC - Calypso Drainage System Rehabilitation. On the NCDPS page, the total award amount and applicable application can be accessed. The total financial award amount presented on the NCDPS page does not illustrate the Project Budget, nor the amount available to pay fees or expenses to a professional services firm; there are other financial requirements such as sub-recipient management costs.

Question 4: What are the most effective community outreach efforts in the Town?

The selected firm will be expected to develop and implement strategies that will effectively engage the community.
